Project topic:
***Fitness related
shopping site***

Kaushik N-1BM19IS069
Prabhu N -1BM19IS096

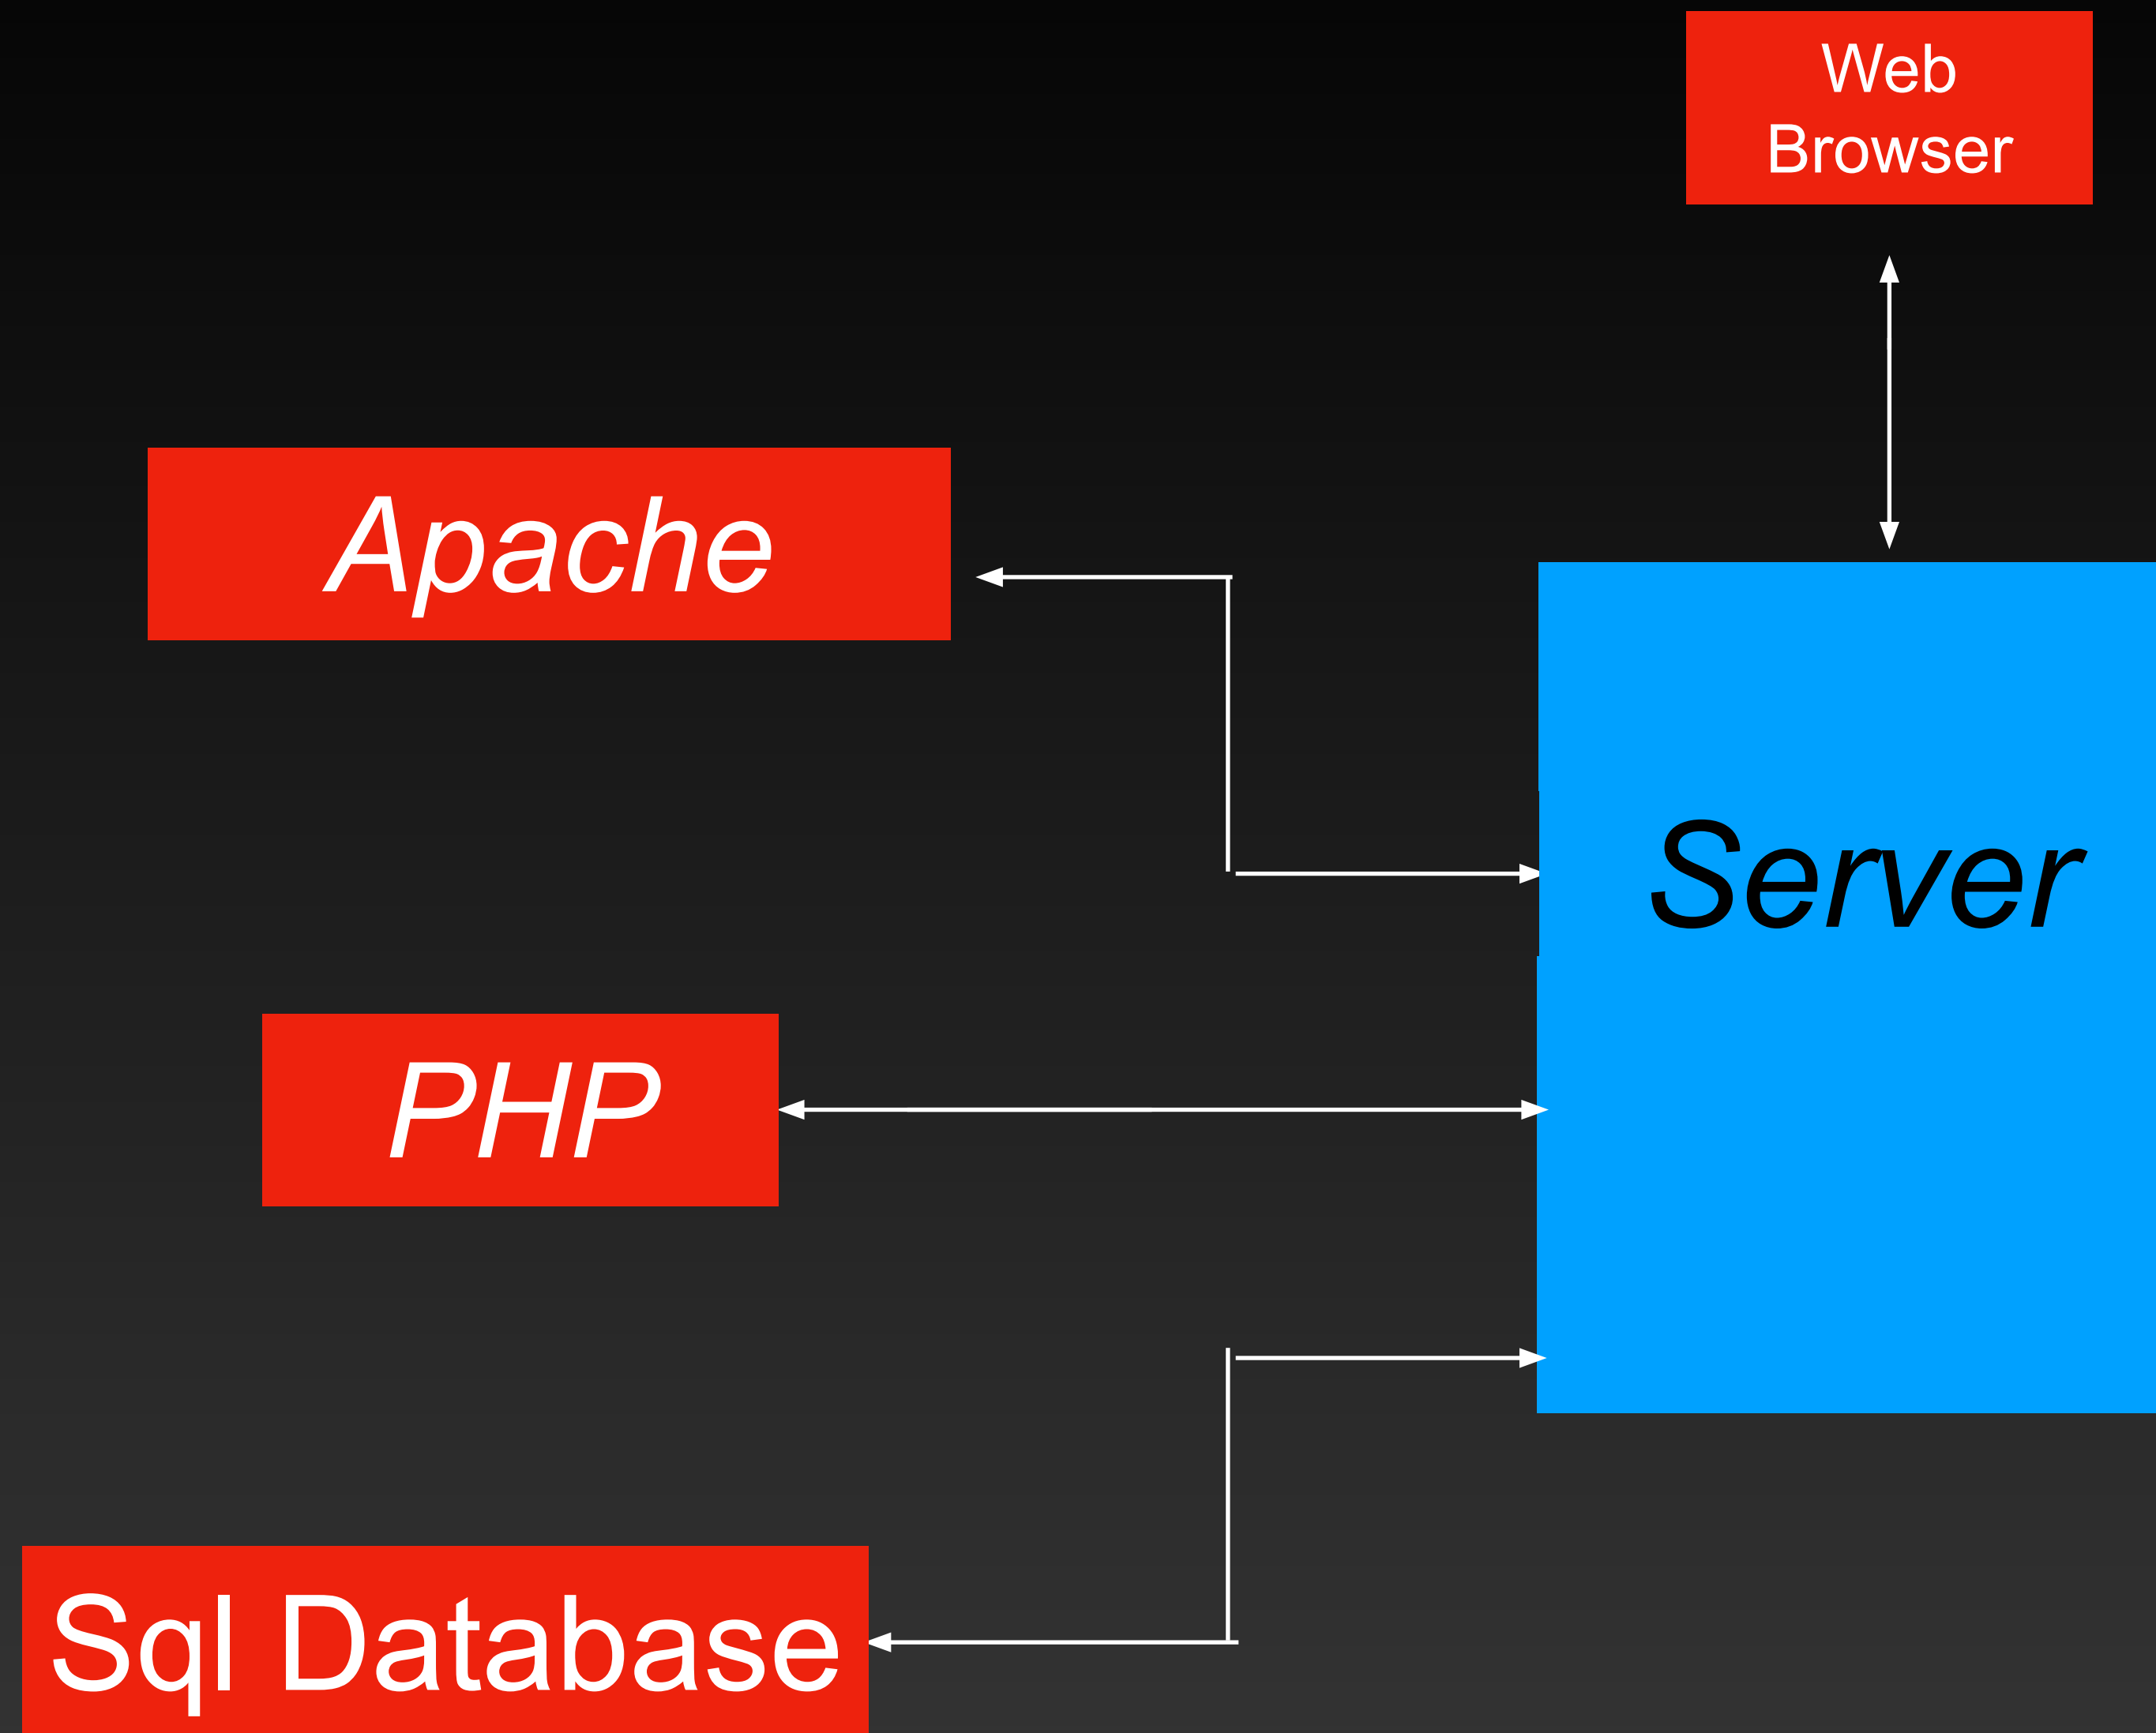

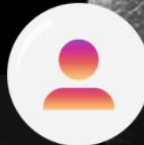

AIM

- To create a shopping website for fitness equipments and supplements
- Where user can login and buy best fitness products.
- The user can add the products to cart.
- The user can remove the products from the cart.
- The user can logout after buying process.

Objective

- To implement a sign up page and to allow the customer to shop
- To include a login page, to collect customer information and redirect to his/her shopping account
- To allow customer to add items to their cart and checkout.
- A page to change password if the customers forget their login details
- Total amount is calculated as the user adds items to the cart.

Conclusion

In our project , customers can buy fitness related products such as supplements and gym equipments online .

For now our project can be used only for online shopping of fitness related products, but can be further developed to provide huge equipments to the customers for rent per month .

It would be affordable for customers who can't afford huge equipments and costly gyms . To provide personal trainers for all customers who are interested.
